We know better what customer needs!

more than  
**30**  
YEARS of the experience  
and  
the innovations

## Laboratory Kit KL - 01

Designed for extracting and measuring ferro magnetic impurities in dry product test probes.

Name	Magnet's lifting power 12 kg	Measuring net		Shunt with a hook	Magnifying glass 8 <sup>x</sup>	Box
		0,3 mm	0,5 mm			
KL-01.00	+	+	+	+	+	+
KL-01.03	+	+	-	+	+	+
KL-01.05	+	-	+	+	+	+

1. Manufactured according to technical specification.
2. Overall dimensions 170x150x64 mm.
3. Weight, not more, 1.0 kg.

## Magnetizing Device PN - 01

Designed for magnetizing horseshoe magnets dimensions 62x62x25mm.

Feeding voltage, V	200
Type of current - alternate monophase, Hz	50
Operation mode	Impulse
Range of magnetizing current impulse, A	100
Quantity of inclusions per minute, not more	1
Overall dimensions, mm	300x122x130
Weight, kg, not more	4
