

NIR separator «Sterkh-N»

Designed for sorting polymers by types using near infrared radiation.

Designation	Capacity, kg / hour*	Fraction, mm	Width of operating zone, mm	Overall dimensions, mm			Total power consumption, kW	Weight, kg
				A	B	C		
NIR-300	250	5+20	300	6400	1100	2000	9.0	1200
NIR-600	500		600	6400	1400	2000	12.0	1600
NIR-900	800		900	6400	1700	2200	16.0	2600
NIR-1200	1100		1200	6400	2000	2200	20.0	3500

- * for the product bulk weight of 0.4 - 0.5 g/cm³.
- Separators can be additionally equipped with:
 - input and outputs screws, conveyors, bucket elevators;
 - frame under the separator;
 - service platform;
 - loading hoppers of various volumes.
- It is possible to produce separators according to customer requirements.
