

Roller Magnetic Separators RS-V

Designed for enrichment of feebly magnetic ores.

Applied in mining industry, industry for beneficiation of oxidized ferrous and other weakly magnetic ores.

Name	Productivity*, t/h	Induction on roller operation area, T	Length of operation area, mm	Overall dimensions, mm			Weight, kg
				L	B	H	
RS-V 22/50	10	1.1	500	1200	1550	1000	300
RS-V- 22/120	25		1200	1900			600
RS-V- 22/150	35		1500	2200			750
RS-V- 22/200	50		2000	2700			1000

1. * For product with the bulk weight from 2.4 up to 2.6 t/m³.

2. At customer's request, manufacturing of separators with induction different from the indicated one is available.
